Don and Joan Lyons purchased the car in 2003, from Thomas Acker. The 1967 AAR (Gurney) Eagle was entered by Smokey Yunick and driven by Dennis Hulme in the Indianapolis 500 Race.

The car had run as the Crower Cam Special with a twin turbo small block Chevrolet in 1972. The car was in this configuration when purchased by the Lyons. Don and Joan have done the restoration themselves, and as you can see by the photos, have done a very correct restoration.
